HC VINTAGE

Sheet size approximately 24"x 48"

Order Information: To view additional colors or to place an order visit www.edhoy.com or call 800-323-5668.

Coding System

With the exception of Tekta, each Bullseye glass product bears a 6-digit style code and 2-digit suffix that indicates surface treatment, texture, length and/or thickness.

Example: 000100-51F (Black thin w/rainbow Irid). To simplify ordering, we eliminate the first -00 portion.

- F Fusible (Tested Compatible)
- 21 Soft Ripple
- 22 Herringbone Ripple
- 25 Irid Herringbone Ripple
- 27 Seedy
- 30 Double-rolled (standard) 3mm

- 068 Tekta Clear Sheet 6mm

Saturday Glass

From subtle and interesting and wild and crazy to absolutely elegant sheets. Top grade glass made in limited runs. Experimental colors, textures and rolling techniques. (As available)

These are examples of some previous styles.

Color Variations

While Bullseye strives for consistent colors, their glass is a handmade product and colors may vary slightly between production runs and from images in the catalog. Some colors may change slightly upon repeated firing or with extensive heatwork. We recommend that you test samples of glass using the same firing cycles and processes to be used in finished pieces.

Colors That Strike

Bullseye produces some glasses that appear pale or colorless in cold form but "strike" or mature to the target color only after reheating to the right temperature. The resulting color may vary depending on variations in the temperature, atmosphere or amount of heatwork. For projects that are especially color-sensitive, we recommend fusing or torchworking a small sample of your glass before use, to best understand the final color result.

Bullseye Tekta Styles		
Style Code	Description	W x L (max)
ORIGINAL HANDCAST CLEAR		
BE 1101 50F	Thin-rolled	20" x 17"
BE 1101 F	Single-rolled	20" x 35"
BE 1101 30F	Double-rolled	20" x 35"
BE 1101 60F	Single-rolled Thick	20" x 35"
HANDCAST NON-LEAD CRYSTAL CLEAR		
BE 1401 50F	Thin-rolled	20" x 17"
BE 1401 30F	Double-rolled	20" x 35"
CLEAR TEKTA		
BE 1100 038F	3mm Double-rolled	24" x 48"
BE 1100 048F	4mm Double-rolled	24" x 48"
BE 1100 068F	6mm Double-rolled	24" x 48"
NON-LEAD CRYSTAL CLEAR TEKTA		
BE 1401 038F	3mm Double-rolled	24" x 48"

Shaded area demonstrates translucency of white glasses on dark backgrounds.

Reactive Potential of Bullseye Glass

Combinations with Reactive Potential

Glasses in the top row may react with glasses in the bottom row. Note: Many glasses can be stained or even react when fired with silver.

LEAD +	REACTIVE +	COPPER +	COPPER +
SULFUR/SELENIUM	COPPER	SULFUR/SELENIUM +	SULFUR/SELENIUM +
		COPPER	LEAD

SULFUR/SELENIUM-BEARING

This category of glasses will also react with silver (foil, wire).

Kokomo Sheet Glass

Density refers to the amount of light that any given sheet of glass will transmit. The codes listed below may be combined with most opalescent color numbers as shown in the following example:

Ordering Codes

- 11D** Very Dense (diffuses light)
- 11MD** Medium Dense (limited light transmission)
- 11** Medium (common density)
- 1ML** Medium Light (considerable light transmission)
- 11L** Light (wispy, translucent opal)
- 11LL** Streaky (a combination of two or more cathedral colors with no opal content)

Sheet glass color MAY vary per shipment. Every effort has been made to present these color images as accurately as possible. Due to the handmade quality of Kokomo glass, each sheet is different. There can be a variation in color saturation within the same batch. Some Kokomo colors cannot be "master matched".

Average sheet size approx.: 32" x 32" (7.11 sq. ft.)

Granite Catspaw sheet size approx.: 24" x 40" (varies per sheet)

Note: Smooth Catspaw available upon special order only.

Full Batch - specially formulated sheets for slumping, firing, or other "warm" applications, using 100% raw materials (no recycled cullet). It is recommended that each sheet be tested to determine shifts in density and/or color after firing.

We will gladly special order any styles not available in our warehouse. Refer to www.edhoy.com for the most up to date selection.

Oceanside Glass & Tile

Oceanside Glass & Tile has decided to transition to an almost exclusive production of 96 COE fusible glass. The production of Oceanside Art Glass (non-fusible) will be limited to Baroque. All other items are being produced as fusible glass only.

The item numbers reflect the old Spectrum number, however, the prefix has been changed to begin with OGT (previously Spectrum).

Wissmach | Art Glass

Wissmach manufactures one of the largest varieties of opalescent and cathedral glass, offered in the following densities and textures.

Density:

- D** Dense Opal Base
- L** Translucent or Light Opal Base
- LL** Streaky - most common styles are Cathedral Color on Clear, or Cathedral Color on Cathedral Color. Can also mean extremely Translucent Opal.
- WO** Wispy, usually Wisps of White
- SPL** Special mixture, density etc.

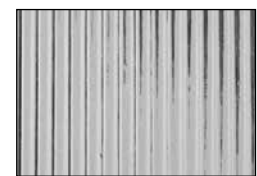

Wissmach Sheet Size:

Sheet size varies. Sold by sq. ft. Most sheets approx. 32" x 42" (812mm x 1066mm) Can be as small as 24" x 32" Unless specified, we will ship the sheet size currently available.

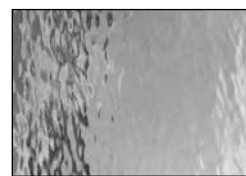

We will gladly special order any styles not available in our warehouse.

Reactive Glass

Wissmach Glass is considered "reactive" when the metals in one glass react with the metals in another and as a result, create a fine line where the two colors meet.

Luminescent Glass

One glass, two effects!

Luminescent glass is similar to other iridescent coatings, but can create different effects depending on the way it is fired.

Fire with the coated side down, and the coating will intensify.

When capped with clear glass, the luminescent glass coating will fade completely.

Available in Clear, Black or White and select colors.

WISB

Standard sample set of
Wissmach's English Muffle
colors.

Youghiogheny True Dichroic

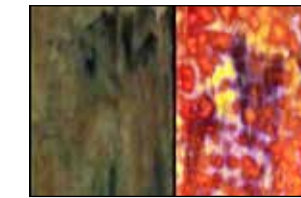

The term "dichroic" means "shows different colors depending on the light". TRUE DICHRO will change in both color and opacity depending on surrounding light. It will appear opaque in reflected light and come alive in transmitted light, in vibrant shades of pinks, purples, blues, yellows. Variations within sheets and between sheets should be expected. Note: TRUE DICHRO is not coated and is not fusible.

How is Glass Sold?

Our glass is sold by the square foot (sq.ft.), each, or pound depending on the manufacturer. It is priced in those units of measure.

Special Orders

Special orders are welcomed for any of the manufacturers that we currently have relationships with. Special orders are non refundable and are subject to minimums and deposits.

Please contact info@edhoy.com for specific details.

Back Orders

Our goal is to have what you need, when you need it but unfortunately at times we will be out of stock on some items for various reasons. Customers will be contacted once the item is received in our warehouse. No back orders will ship without confirmation.

Damaged Merchandise

If you receive damaged merchandise, please immediately notify returns@edhoy.com. Please include your daytime phone, shipping address and photo of the damage.

UPS deliveries - We will file a claim with the carrier and reimburse you for the lost materials

Motor Freight - IMPORTANT! Inspect for outer damage and concealed damage before signing. If no exception/notation regarding damage is made on the delivery receipt, we will not be able to file a claim for you.

USPS - Damaged merchandise should be reported by you. All merchandise claims should be handled directly by you with USPS.

Returns - No Returns on Glass

We will accept returns and refund you through your method of payment within 30 days of purchase. All items must be returned in good, unopened condition and require a Return Authorization Number (RMA). Restocking fees may apply.

Unfortunately, we cannot accept returns of glass, books, DVDs, lead, chemicals, opened items or special order items.

Please Note: In order to obtain an RMA # please fill out our online form at: edhoy.com/rma-return-request.

Once the request is received on our end, you will receive an email from us within 2-4 business days including your RMA # and instructions regarding shipping your items back to us.

Celebrating 50 Years of Creative Inspiration!
